We're proud to join hands with:

AKINOX LINX PLATFORM

Orchestrating the Journey of Connected Care

With the Akinox Linx Platform, we're redefining healthcare with a seamless approach to optimize the patient journey. Imagine our platform as the air traffic controller for patient journeys - coordinating, guiding, and ensuring effective transitions across every stage of care, from intake to follow-up. Smart automation streamlines workflows, enhances collaboration, and improves efficiency to enable quality, safe, comprehensive care delivery. Our platform connects and coordinates each part of the journey, guiding everyone toward a well-orchestrated experience of connected care.

Every feature of Linx brings the patient journey to life with precision. By enabling interoperability at each touchpoint, we transform complex care pathways into cohesive experiences, allowing patients, providers, and administrators to interact smoothly across systems and regions. Our commitment to connected care means that each patient journey is not only supported but truly centered, ensuring healthcare that flows in harmony and enhances outcomes for all.

Data collection, centralization and exchange via a **SINGLE PLATFORM**

WHY CHOOSE AKINOX

→ Our Unique Collaborative Approach

With years of industry experience and as a trusted government partner, we understand our client's needs. We've developed the tools to implement an agile, responsive and collaborative approach to better serve our clients. Our platform, solutions and accompanying services are as collaborative as they are innovative. We are firm believers that together, we go further.

→ Our Modern and Secure Technology

- Integrated Analytics / Business Intelligence (BI) / Data Warehouse
- Modern scalable architecture
- Flexible, cloud-agnostic infrastructure
- Interoperability with EMR, EHR, Patient Index, scheduling, etc.

→ Our Talented Team

Our unique and diverse team of experts combines many years of experience and knowledge in the healthcare sector and is the key to Akinox's success.

"At Akinox, we have a deeply rooted passion for change grounded in a spirit of service and humility. We work in partnership with patients and the world's leading clinicians, researchers and healthcare administrators to ceaselessly innovate, bridging gaps across the care continuum for a better shared experience and outcomes. We are honoured to be in a position to create a tangible difference in many people's lives."

Alexander Dahl, CEO & Founder of Akinox.

"We have implemented a new solution with Akinox to manage contact cases. This will automate many operations and will help optimize the time of healthcare professionals. In this way, we're giving ourselves technological tools to improve the capacity of our investigators."

Dr Horacio Arruda, former National Public Health Director and Assistant Deputy Minister at the Ministry of Health and Social Services, Québec.

AWARDS, RECOGNITIONS AND CERTIFICATIONS

OUR ACHIEVEMENTS

Since 2010, Akinox has developed and deployed a wide range of digital health solutions to bring providers and patients together for better outcomes. We originally developed a platform for automating digital health processes that was used for telemedicine projects at several leading health systems, especially in Canada's Far North.

Virtual Health Platform

Prior to COVID solution – now being provincially deployed. Fully integrated into the health system for better outcomes.

 **25,000+**
Teleconsultations Completed

Agir tôt (Act Early)

Early childhood behavioural and developmental milestone health screening to connect families to the right services quickly.

 **150,000+**
Forms Filled

 **75,000+**
Children Screened

COVID

Contact Tracing and Case Management systems.

 **12.8M+**
Test Results Processed

Primary Care Access Platform

Nearly 2M Quebecers don't have family doctors. Our platform helps them find the best service for their needs.

 **2.8M+**
Recommendations Completed

 **5,9K+**
Average Daily Requests

VaxiCode and VaxiVerif

For Quebec and two other provinces. Over 10M people have used these solutions.

 **8.5M+**
Vaccination Passports Issued (QC, SK, NL)

Digital Front Door

Digitally enabled care, serving as a central hub for seamless access to healthcare services.

 **3M+**
Interactions Processed

2001

2020

2025

Together, let's accelerate connected care with innovative digital solutions.
